### Pro Skateboarding Sensation Ryan Decenzo signs to Superheroes Management

**SEATTLE, WA - April 20, 2010** - Superheroes Management is pleased to announce the signing of pro street skateboarder, Ryan Decenzo, one of the fastest rising international skateboard stars today.

"I'm really fired up about this," says Decenzo. "I began looking for an agent during the winter, and believe I'm making a great choice with Superheroes Management. Not only am I going to have more time to go skate now, but I'm also working with a professional agent that makes things happen."

Recently relocated to Huntington Beach, CA from his native Vancouver, BC area, Decenzo has been ascending the pro skateboard ranks for years, proving consistently that he's one of the most balanced editorial and contest skaters. His contest results include winning Tampa Am, Phoenix Am, and Winnipeg Am in 2008, then 2nd at the 09 Boston Dew Tour stop, and best tricks at the 09 Portland and Salt Lake City Dew Tours. Simultaneously, he snatched up one of the top video parts in the world last year in Globe's, "United by Fate." Add a Skateboard Canada cover, a published double-page spread in ESPN magazine, the whopping 14-page interview and shared Thrasher cover with his highly-gifted younger brother, Scott Decenzo (as well as their shared 09 cover of Color Magazine), then going pro with Darkstar, and its an amazing past couple years.

In 2010, 23-year old Decenzo plans to once again be highly productive on both the contest and editorial skateboard scenes, working closely with all of his sponsors to continue to achieve. Decenzo's current sponsor roster includes Red Bull, Neff hats, Darkstar, Globe shoes, Red Dragon apparel (RDS), Nixon watches, Dakine bags, Thunder trucks and Bones wheels.

**Decenzo joins a group of other talented and renowned action sports stars currently represented by Superheroes Management including:**

- **Bobby Brown:** 18 yr old, 2-time Winter X-Games 14 Gold Medalist (Ski Slopestyle and Big Air)
- **Devun Walsh:** Snowboard legend is 4th-ranked on Oct 09 Transworld Exposure meter
